July 2011

UPDATED 2011 REODATA® 4.0 Technical Booklet

Essential Technical Data on Steel Reinforcement

The REODATA® 4.0 booklet has been updated to include the latest technical information on steel reinforcement.

It is the most comprehensive edition ever produced by OneSteel Reinforcing with more in-depth and relevant information on reinforcing Standards, handy information on how to use REO products, and also the range of OneSteel Reinforcing specialised solutions to save time, cost and resources.

Spanning 74 pages, the 2011 inclusions reference new information on the ECO-REO™ range of sustainable reinforcing products, Green Star® steel credit points, and updates to the Australian Standards of AS3600:2009.

NEW 2011 REOWORKS® 5 CD/DVD

Everything you need to know about REO on CD and DVD

Fully updated, the REOWORKS® 5 CD contains the latest OneSteel Reinforcing case studies, customer testimonials, product brochures and technical data including ECO-REO™ and Green Star® compliance.

The DVD features more than 90 videos, spans the entire range of OneSteel Reinforcing products, and features customers talking about their experiences in using OneSteel Reinforcing products.

Both the CD and DVD have been updated to mirror the reinforcing.com website; divided into Housing & Renovation Solutions, Commercial Construction Solutions, Civil Construction Solutions, Other Solutions and additional references such as Technical Resources. The new design enables ease of navigation and immediate access to relevant information. Printer friendly versions of case studies and technical data sheets can also be downloaded from the CD.

REODATA® 4.0 and REOWORKS® 5 are part of the REO ESSENTIALS tools available from OneSteel Reinforcing to assist customers in their housing, commercial and civil projects.

All of OneSteel Reinforcing's REO ESSENTIAL tools, including REODATA® 4.0 and REOWORKS® 5, are available free from the OneSteel Reinforcing website, www.reinforcing.com
